Cor. 9th and D Sts. N.W.

Collision of the Supreme Council in numbers. The rapid growth of the Supreme Council in numbers and its prospective corresponding increase in the south have each been substantially recommended to the nomination of new jurisdictions and the nomination and election of a fresh high is moving southeastward over the Dakotas.

The first touch of winter weather was apparent last night over North Dakota, where light snow was falling. General rain has fallen in the Ohio valley, the southern portion of the lake region, the middle Mississippi valley, Tennessee, and thence southwestward into Texas. The temperature changes of late have been the Scottish Rite Masons of his state increase from 823 in 1963 to 982 in 1967, making it one of the largest and middle Atlantic coasts and a fresh high is moving southeastward over the Dakotas.

The first touch of winter weather was apparent last night over North Dakota, where light snow was falling. General rain has fallen in the Ohio valley, the southern portion of the lake region, the middle Mississippi valley, Tennessee, and the nomination and election of a fresh high is moving southeastward over the New England and middle Atlantic coasts and a fresh high is moving southeastward over the New England and middle Atlantic coasts and a fresh high is moving southeastward over the Dakotas.

The first touch of winter weather was apparent last night over North Dakota, has seen the Scottish Rite's swift expansion in his section. Thus Henry C. Plummer, thirty-third degree, the new active inspector general for North Dakota, has seen the Scottish Rite Ma welopment of his consistory from 159 embers of subordinate bodies four years development of his consistory from 159 members of subordinate bodies four years ago to 465 at present. This growth, while not so large in proportion as that in the northwest, was considered worthy of recognition because of the keen interest and activity displayed in the large southern cities on behalf of the rite.

The promotion of Inspector General Alvorsen of Iowa from a deputy to an active came in the way of succession by rason of death, but in this case also there were the figures to show for the promotion. Iowa is one of the most rapidly developing Scottish Rite sections. From 1903 to 1907 there was a phenomenal growth in this state also. The Rite had 803 Mithras Lodge Hawkeyes in 1903, and now boasts of a total of 1,683.

Techts Creater Stores

Allow Us to Demonstrate to You the New Way of Selling Pianos.

Until the inauguration of the Hecht plan one year ago piano buyers had no alternative but to go to an exclusive piano store and pay any sort of

ished double-voneered mahogany case; 7 1-3 octaves; 3 uniswing music desk

a fancy price it chose to ask. And in the matter of terms it was its requirements that were followed, not the wishes of the buyers. If you wished to have the piano in your own home to try before purchasing you were met with a refusal. The Hecht plan changes all that in the most radical way. Take the famous REGAL Piano, for instance. We wish to make a practical demonstration of our plan by placing one of these elegant REGAL Pianos in your home at our own expense on trial. Should you later decide to buy it, and will present this advertisement, it will be received as the \$10 cash payment. \$1.50 weekly then pays for the piano.

This Advertisement Is Worth \$10 to You.

If you will bring this advertisement to our store it will be accepted as the \$10 cash payment on any of these superb Regal Pianos-thus you pay not one penny at time of purchase. So much confidence have we that you will find these elegant instruments perfectly satisfactory that we make the terms more favorable than have ever been named for like high-grade pianos. SCARF, STOOL, RUBBER COVER AND ONE YEAR'S TUNING FREE.

WOU will notice that by presenting this advertisement vou are under no expense whatever at the time of purchase, as it is received in lieu of the cash payment. And another point to keep in mind is that in buying the Regal Piano you secure one of the world's standard instruments; and the more you know about pianos the better pleased we would be to have you call and inspect them. There's nothing in modern piano construction not embodied in the renowned Regal instruments.

LL you need say is "send A it," and we will gladly place in your home any of these superb Regal Pianos, and entirely at our own expense, too. You will then be best able to judge of the merits of the instrument, and to decide whether it is the piano that fills every requirement. If, after a fair test, you find that our claims are fully borne out and you wish to buy the piano, this advertisement will be received as the \$10 cash payment and \$1.50. weekly pays for it.

Virginia, rain Sunday. Monday fair and colder; fresh southerly, shifting to westerly, winds. THS IS HIS BIRTHDAY.

AUGUSTUS CRANE, JR.

astute person. The astuteness is clearly shown by the fact at the age of twentyeight Mr. Crane cast a last lingering look Square good-bye and came to Washington. It was a wise move. Mr. Cranfirm of Crane, Parris & Co., and is well pany.

This is an excellent picture of an known even beyond the confines of the block on which he resides.

There are several epochs noted in the life of Augustus Crane, jr. He was born October 27, 1853, educated at the Highat the Great White Way, bade Herald Mass, and learned the gentle art of dollartrapping in a Wall street counting house ton. It was a wise move. Mr. Crane is fond of apples, prefers Key West cigars, owns a dog and is a director in the Washington Loan and Trust Com-

LOSES LIFE IN THE RIVER.

Employe of Lumber Boat Accidentally Falls Overboard.

While staggering about on the lumber boat Mary Francis, upon which he was employed, as it was lying at the 10th street southwest wharf yesterday afternoon, Samuel Simpson, colored, twentyfive years old, living near Cross Roads

investigation.

When Simpson was last seen on the boat on which he was employed it is said he was under the influence of liquor. He was then leaning against a pile of lumber aboard the boat, talking with the mate of another lumber boat, the John McGuinness, which was alongside of the Mary Francis. That was about 12:30 o'clock, and at 2 o'clock he was missed. Capt. Edward Cash at once started on a hunt for him, but failed to locate him. Finally Simpson's hat was seen floating on the water near the boat and Capt. Cash suspected he had been drowned. He immediately notified the harbor police precinct and the crew was sent to the scene. After dragging around the Mary Francis for a short time the body was published to the surface and the two upper stories for a series of modern office suites. The entire improvement, when completed, will cost about \$25,000. The Washington Mechanics' Savings Bank was organized April 11, 1906, with a capital of \$15,000, but the growth of the business has been so rapid that the capital has since been increased to \$20,000, and with the growth of deposits the assets of the bank are now about \$75,000.

The negotiation for the property were conducted through Joseph D. Sullivan, attorney for the bank, aided by a committee of the directors.

The officers and directors are: Ezra Gould, president; H. K. Daugherty, vice precinct and the crew was sent to the scene. After dragging around the Mary Francis for a short time the body was Francis for a short time the body was pulled to the surface, as stated.

Little is known here of the family of the dead man. He had not been long employed on the boat from which he was drowned, but his home was known to have them in Charles county Md. Fronts are
